

CANCER INSURANCE

Overview: Cancer insurance offers a financial safety net specifically designed to help with the substantial costs associated with a cancer diagnosis and treatment. It aims to reduce the financial strain so you can focus on recovery.

COMMON FEATURES:

Lump-Sum Initial Diagnosis Benefit: A significant cash payout upon the initial diagnosis of a covered internal cancer, which can be used for any purpose.

Treatment Benefits: Coverage for various cancer treatments, including radiation, chemotherapy, immunotherapy, and sometimes experimental treatments.

Screening & Wellness Benefits: Often includes benefits for cancer screenings, encouraging early detection.

Hospital & Surgical Benefits: Provides benefits for hospital confinement, surgical procedures, and anesthesia related to cancer treatment.

Transportation & Lodging: May help cover costs if you need to travel for specialized treatment.

Flexibility of Use: Benefits are paid directly to you, allowing you to use them for medical bills, lost wages, household expenses, or childcare.

No Network Restrictions: You can choose your own doctors and treatment facilities.

Guaranteed Renewable: Many policies are guaranteed renewable for life, provided premiums are paid.
